

## PPE Kit Bag

- The canvas kit bag comprises of;
- 1) Pack of Nitrile Gloves
  - 2) Choice of microfibre mask or face shield
  - 3) 300ml of hand sanitiser
  - 4) Pack of 100 sanitising wipes

## Choice of Masks

A solid microfibres mask. This fabric is sold into the medical profession, it is breathable, wipeable, and washable. The lining is 100% polycotton. The pocket created by the lining is for extra filtration, which you can put a disposable lining. The lining can then be thrown away after each use. There is a soft wire at the top of the mask which is to be bent over the bridge of the nose, which secures the whole face area.

# Sovereign online

Alternatively we can provide a plastic face shield.
